Emergency Evacuation Policy

Emergency and evacuation situations in early education and care services may arise for a variety of reasons, often suddenly and unexpectedly. It is vital that if an emergency situation arises, staff are confident to manage the situation effectively and efficiently, maintaining the safety and wellbeing of children, families and visitors.

Ensuring that Educators and children know what to do in an emergency situation requires vigilant planning and practice. Regularly practicing the drills for emergency situations also provides an opportunity to help support and build on children’s coping mechanisms and resilience.

Emergency situations may pose a risk to an individual's health and safety. It is important that Services identify potential emergencies that may be specific to their location and environment.

To ensure compliance with National Regulations and National Law, our Service will ensure that:

- emergency and evacuation policies and procedures are available for inspection at the Service's premises at all times
- the Approved Provider will conduct a risk assessment to identify potential emergencies that are relevant to the Service annually
- emergency evacuation plans are displayed in prominent positions near each exit at the Service premises including both the indoor and outdoor learning areas
- the plan includes a floor plan for ease of reference with clearly defined assembly points and clearly marked exit routes from all locations within the Service

- all staff, visitors and students are aware of emergency evacuation points
- emergency evacuation rehearsals (drills) will be practiced and reviewed each term by the responsible person, all staff members, volunteers, and children present on the day

- Fire in the surrounding area where the Service may be in danger. If you are unsure how close the fire is contact your local fire station or local Rural Fire Service. continuous improvement to procedures which will be documented in the Service's Staff Meeting minutes and Quality Improvement Plan (QIP).

- In the event of limited Educators (e.g. early morning or late afternoon), staff members are to work together to perform the duties as per the evacuation plan (the roster must include a Responsible Person being on the premises at all times to take responsibility and delegate duties). Important: The notification of a serious incident to a regulatory authority (within 24 hours) is required when emergency services have attended an education and care service in response to an emergency, rather than as a precaution or for any other reason.

Dealing with Trauma

Kinburra Preschool

Emergencies and natural disasters are extremely stressful, and it is normal for children and adults to feel overwhelmed and distressed. People cope with trauma in many different ways. Children look to adults for reassurance, care and opportunities to share their feelings. It is important for educators to understand the impact of disasters and seek help when needed.

The Approved Provider/Nominated Supervisor will support educators to provide information to parents and families following any emergency or natural disaster including:

- will the service be open in the days and weeks ahead?
- how to find alternative care and education
- how to contact services for support with dealing with trauma

Several organisations offer support for educators in these situations:
