

**Kinburra Preschool**

# Control of Infectious Disease Policy

---

The spread of infections in the early childhood environment is facilitated by microbial contamination of the environment, as well as the greater exposure to young children who are still developing hygienic behaviours and habits. Our Service will minimise children's exposure to infectious diseases by adhering to all recommended guidelines from relevant government authorities regarding the prevention of infectious diseases, promoting practices that reduce the transmission of infection, ensuring the exclusion of sick children and educators, supporting child immunisation, and implementing effective hygiene practices.

Our Service will provide up-to-date information and advice to parents, families and educators sourced from the Australian Government, Department of Health and state Ministry of Health about infectious diseases as required. Recommendations from the Health Department will be strictly adhered to at all times.

## NATIONAL QUALITY STANDARD (NQS)

QUALITY AREA 2: CHILDREN'S HEALTH AND SAFETY		
2.1.1	Wellbeing and comfort	Each child's wellbeing and comfort is provided for, including appropriate opportunities to meet each child's needs for sleep, rest and relaxation.
2.1.2	Health practices and procedures	Effective illness and injury management and hygiene practices are promoted and implemented.
2.2	Safety	Each child is protected.

EDUCATION AND CARE SERVICES NATIONAL REGULATIONS	
77	Health, hygiene and safe food practices
85	Incident, injury, trauma and illness policies and procedures
86	Notification to parents of incident, injury, trauma and illness
87	Incident, injury, trauma and illness record
88	Infectious diseases

**Kinburra Preschool**

90	Medical conditions policy
93	Administration of medication
162	Health information to be kept in enrolment record
168	Education and care service must have policies and procedures
170	Policies and procedures to be followed
172(2)(g)	a notice stating that there has been an occurrence of an infectious disease at the premises
173	Prescribed information to be displayed
175	Prescribed information to be notified to the Regulatory Authority
<b>EDUCATION AND CARE SERVICES NATIONAL LAW</b>	
172	Offence to fail to display prescribed information

---	---

**PURPOSE**

Children encounter many other children and adults within the Service environment which can result in the contraction of infectious illnesses. Our Service has a duty of care to ensure that children, families, educators, and visitors of the Service are provided with a high level of protection during the hours of the Service's operation. We aim to manage illnesses and prevent the spread of infectious diseases throughout the Service.

## Kinburra Preschool

Immunisation is a simple, safe, and effective way of protecting people against harmful diseases before they come into contact with them in the community. Immunisation not only protects individuals, but also others within the community, by reducing the spread of disease and illnesses.

### SCOPE

This policy applies to children, families, educators, staff, visitors, approved provider, nominated supervisor and management of the Service.

### IMPLEMENTATION

Our Service is committed to minimise the spread of infectious diseases and viruses by implementing recommendations as stated in the *Staying healthy: Preventing infectious diseases in early childhood education and care services* (Fifth Edition) developed by the Australian Government National Health and Medical Research Council.

We are guided by decisions regarding exclusion periods and notification of infectious diseases by the *Australian Government- Department of Health* and local Public Health Units in our jurisdiction as per the Public Health Act.

The need for exclusion and the length of time a person is excluded from the Service depends on:

- how easily the infection can spread
- how long the person is likely to be infectious and
- the severity of the infectious disease or illness.

This policy must be read in conjunction with our other Quality Area 2 policies:

- Immunisation Policy
- Sick Children Policy
- Incident, Illness, Accident and Trauma Policy and
- Medical Conditions Policy and
- Handwashing Policy
- COVID-19 Management Policy

**Note** homeopathic immunisation is not recognised.

### PREVENTING INFECTIOUS DISEASES

Children enter education and care services when their immune systems are still developing. They have not been exposed to many common germs and therefore are susceptible to bacteria that may cause infections. Given the close physical contact children have with other children in early childhood and care, it is very easy for infectious diseases and illnesses to spread through normal daily activities.

Our Service implements rigorous hygienic practices to limit the spread of illness and infectious diseases including:

- effective hand washing hygiene
- cough and sneeze etiquette
- use of gloves
- exclusion of children, educators or staff when they are unwell or displaying symptoms of an infectious disease or virus
- effective cleaning of the environment, toys and resources (including bedding)
- requesting parents and visitors to wash their hands with soap and water or hand sanitizer upon arrival and departure at the Service

## **Kinburra Preschool**

### **Immunisation requirements**

Immunisation is a reliable way to prevent many childhood infectious diseases. As of January 2018, unvaccinated children due to their parent's conscientious objection are no longer able to be enrolled in childcare in NSW. Children who cannot be fully vaccinated due to a medical condition or who are on a recognised catch-up schedule may still be enrolled upon presentation of the appropriate form signed by a medical practitioner.

The relevant vaccinations are those under the *National Immunisation Program* (NIP), which covers the vaccines usually administered before age five. These vaccinations must be recorded on the Australian Immunisation Register (AIR).

Educators and other staff at our Service are highly recommended to keep up to date with all immunisations including yearly influenza vaccinations. These include vaccinations recommended by the National Health and Medical Research Council (NHMRC). Educators, staff and visitors, including health professionals, volunteers, students, committee members and contractors are required to be fully vaccinated for COVID-19 under Public Health Orders in NSW.

*Refer to Immunisation Policy for more information*

### **Reporting Outbreaks to the Public Health Unit and Regulatory Authority**

Outbreaks of communicable diseases and contagious viruses represent a threat to public health. To help prevent outbreaks, the Department of Health monitors the number of people who contract certain infectious diseases and their characteristics, the recent travel or attendance of infected people in a public place or on public transport, and works with health specialists and doctors to help prevent the transmission of diseases to other people.

The Public Health Act 2010 lawfully requires and authorises doctors, hospitals, laboratories, school principals and childcare centre directors to confidentially notify [NSW Health](#) of patients with certain conditions, and to provide the required information on the notification forms. Specialist trained public

## Kinburra Preschool

health staff review this information and if necessary, contact the patient's doctor, and sometimes the patient, to provide advice about disease control and to complete the collection of information.

All information is held confidentially in order to protect the patient's privacy. Both the NSW and Commonwealth Privacy Acts only release/disclose patient information where it is lawfully required or authorised.

Management is required to notify the local Public Health Unit (PHU) by phone (call 1300 066 055) as soon as possible after they are made aware that a child enrolled at the Service is suffering from one of the following vaccine preventable diseases or any confirmed case of COVID-19:

- Diphtheria
- Mumps
- Poliomyelitis
- Haemophilus influenzae Type b (Hib)
- Meningococcal disease
- Rubella ('German measles')
- Measles
- Pertussis ('whooping cough')
- Tetanus
- An outbreak of 2 or more people with gastrointestinal or respiratory illness

Management will closely monitor health alerts and guidelines from Public Health Units and the Australian Government- Department of Health for any advice and emergency health management in the event of a contagious illness outbreak- e.g. (COVID-19).

The Approved Provider must also notify the Regulatory Authority of any incidence of a notifiable infectious disease or illness ([ACECQA contact regulatory authority](#))

### MANAGEMENT WILL ENSURE:

- that all information regarding the prevention and transmission of infectious diseases is sourced from a recognised Government Health authority [Australian Government Department of Health](#)

## Kinburra Preschool

- exclusion periods for people with infectious diseases recommended by Government Authorities are implemented for all staff, children, parents, families and visitors
- the Service implements recommendations from [Staying healthy: Preventing infectious diseases in early childhood education and care services](#) to maintain a healthy environment
- children are protected from harm by ensuring relevant policies and procedures are followed regarding health and safety within the Service
- required enrolment information, including health and immunisation records of enrolled children is collected, maintained and appropriately and securely stored
- a staff immunisation record that documents each staff member's previous infection or immunisations (including dates) is developed and maintained
- the Public Health Unit is notified in the event of an outbreak of viral gastroenteritis. Management must document the number of cases, dates of onset, duration of symptoms. An outbreak is when two or more children or staff have a sudden onset of diarrhoea or vomiting in a 2 day period (NSW Government- Health 2019).

In the event of a confirmed COVID-19 case the Public Health Unit and Regulatory Authority will be notified, and advice followed to ensure the safety of children, educators and visitors to the service ([NQA ITS](#))

- the Department of Education, Skills and Employment in NSW is notified of a positive case of COVID-19
- directions from the PHU are followed to close the service and an industrial/deep clean of the service is conducted
- all families and staff are notified of the closure of the service if advised to do so by the PHU
- privacy and confidentiality laws are adhered to- the person who has the confirmed case of COVID-19 will be on a 'need to know' basis only
- information is provided to the PHU for contact tracing
- COVID-19 testing will be conducted for educators and staff at the Service
- COVID-19 testing will be required for all children and families as advised by PHU
- re-opening dates will be confirmed to the Regulatory Authority, DESE and families when advised by the PHU (See *COVID-19 Management Policy*)

## Kinburra Preschool

### Managing a positive case of COVID-19 in an ECEC settings

Changes may occur to how our Service manages positive cases of COVID-19 during 2022. We will be directed by our regulatory authority as to what procedures need to be followed to ensure the health and safety of all staff, children and families.

Any person who tests positive to COVID-19 must inform their workplace/employer and education and care service as soon as possible. If a parent or carer attended the Service while infectious, they must inform the service. A positive person and any 'close contacts' must self-isolate for a minimum of 7 days. Exemptions may apply for staff who work as essential workers.

The Approved Provider must notify the Regulatory Authority of a positive case/or cases of COVID-19 within 7 days, or as soon as possible through the [\(NQA ITS\)](#) as per Regulation 175(2)(c )

- management will determine staff, children and visitors who were in attendance with the case during the infectious period
- management will notify those in attendance and send a risk of COVID-19 letter
- isolation is no longer mandatory for exposures in ECE services, however it is recommended
- the service will undertake a thorough clean and disinfection
- a decision to close the service may be required if staffing ratios are affected and all families and staff will be notified of the closure
- privacy and confidentiality laws are adhered to- the person/s who has the confirmed case of COVID-19 will be on a 'need to know' basis only
- re-opening dates will be confirmed to the Regulatory Authority, DESE and families.

See: [Management of COVID positive cases in ECE service NSW](#)

#### **A NOMINATED SUPERVISOR/ RESPONSIBLE PERSON WILL ENSURE:**

- a hygienic environment is promoted and maintained
- children are supported in their understanding of health and hygiene practices throughout the daily program and routine (hand washing, cough and sneeze etiquette)
- educators and staff are aware of relevant immunisation guidelines for children and themselves
- wall charts about immunisation are displayed outside each room

## Kinburra Preschool

- an Immunisation History Statement for each child is collected on enrolment and maintained regarding the child's immunisation status (AIR) and any medical conditions
- families are provided with relevant sourced materials and information on infectious diseases, health, and hygiene including:
  - the current NSW Immunisation Schedule
  - exclusion guidelines in the event of a vaccine preventable illness at the Service for children that are not immunised or have not yet received all their immunisations
  - advice and information regarding any infectious diseases in general and information regarding any specific infectious illnesses that are suspected/present in the Service
- families are provided with information about an infectious disease by displaying and emailing the Infectious Diseases Notification Form and details
- families are advised that they must alert the Service if their child is diagnosed with an Infectious Illness
- all educators are mindful and maintain confidentiality of individual children's medical circumstances
- that opportunities for educators to source pertinent up to date information from trusted sources on the prevention of infectious diseases and maintaining health and hygiene are provided
- that opportunities for staff, children, and families to have access to health professionals by organising visits/guest speakers to attend the service to confirm best practice are provided
- families are advised to keep children at home if they are unwell. If a child has been sick they must be well for 24hrs before returning to the Service. For example, if a child is absent due to illness or is sent home due to illness, they will be unable to attend the next day as a minimum. The Nominated Supervisor may approve the child's return to the Service if families provide a doctor's certificate/clearance certifying that the child is no longer contagious and is in good health
- to complete the register of *Illness, Accident or Trauma* and/or document incidents of infectious diseases no later than 24 hours of an illness or infectious disease occurring in the Service
- any risk to a child or adult with complex medical needs is minimised in the event of an outbreak of an infectious disease or virus. This may require a risk assessment and decision-making regarding the suitability of attendance of the child or staff member during this time.

## Kinburra Preschool

### EDUCATORS WILL ENSURE:

- that any child suspected of having an infectious illness is responded to and their health and emotional needs supported at all times
- that appropriate health and safety procedures are implemented when treating ill children
- families are aware of the need to collect their unwell child/ children as soon as practicable from the Preschool
- after confirmation that a child is suffering from an infectious disease, and as soon as practical, the family of each child must be notified whilst maintaining the privacy of the ill/infectious child.

Communication may be:

- verbally
- through a letter from the educator or Approved Provider
- posting a note or sign at the entry of the residence
- via electronic message- text message or email
- their own immunisation status is maintained, and the Approved Provider/Nominated Supervisor is advised of any updates to their immunisation status
- they are fully vaccinated against COVID-19 and have provided proof of vaccination to the approved provider
- opportunities are provided for children to participate in hygiene practices, including routine opportunities, and intentional practice such as hand washing, sneezing and cough etiquette
- consideration is given to the combination of children to decrease the risk of attaining an infectious illness when planning the routines/program of the day
- they adhere to the Service's health and hygiene policy including:
  - hand washing
  - daily cleaning of the Service
  - wearing gloves (particularly when in direct contact with bodily fluids- nappy changing and toileting)
  - appropriate and hygienic handling and preparation of food
  - COVIDSafe Plan
- they maintain up-to-date knowledge with respect to Health and Safety through on-going professional development opportunities

### **Kinburra Preschool**

- that children rest 'head to toe' to avoid cross infection while resting or sleeping
- children do not to share beds at the same time
- paper towel and disinfectant is used to clean beds after each use
- that all play dough is freshly made every week. If there is an outbreak of vomiting and/or diarrhoea, or any other contagious communicable disease, play dough is to be discarded at the end of each day and a new batch made each day for the duration of the outbreak
- children wash their hands before and after using play dough

**Prevention strategies for minimising the spread of disease within our Service include all staff ensuring:**

- mops used for toilet accidents are to be soaked in disinfectant in a bucket in the laundry sink and then air-dried
- that a weekly clean is carried out on other surfaces that may transmit germs such as doorknobs, low shelving, etc. This will be increased if an outbreak has been recorded in the Service
- that if a child has a toileting accident, the items are placed in a plastic bag with the child's name on it. The plastic bag will be stored in a sealed container labelled 'soiled/wet clothing' for parents to take home
- cloths are colour coded so that a separate cloth is used to clean floors, bathroom, art and craft, and meal surfaces
- that any toy that is mouthed by a child is placed immediately in the 'toys to be washed' container that is located under the sink, this will be taken out and placed in the sink as needed as child/children will be asked to put in the sink if toy is mouthed and then can be responsible for washing the toy together with an educator and put in the sun to dry. Toys are washed with warm soapy water at the end of the day. All washable toys out on display for the children are to be washed on a weekly basis to decrease the risk of cross contamination and recorded with the date and a signature as evidence
- toys and equipment (that are difficult to wash) will be washed with detergent (or soap and water) and air-dried in sunlight
- washable toys and equipment will be washed in detergent and hot water or the dishwasher and aired to dry (toys will not be washed in the dishwasher at the same time as dishes). All toys and equipment that have been cleaned will be recorded on the toy cleaning register

## Kinburra Preschool

- all cleaning procedures will be recorded on the Service's Cleaning Checklist
- furnishings, fabric tablecloths and pillowcases will be laundered at the end of each week and hung out to dry. This will be increased to every Monday, Wednesday and Friday during winter months or during an outbreak of illness in the Service
- floor surfaces will be cleaned on a daily basis after each meal and at the end of each day
- toilets/bathrooms will be cleaned in the middle of the day, the end of the day and whenever needed throughout the day using disinfectant and paper towel
- disposable paper towel and disinfectant are used to clean bodily fluids off beds, floors, bathrooms, etc
- pregnant staff do not change nappies or assist in toileting or cleaning up toileting accidents to prevent unexpected cross contamination and risk to pregnancy

### FAMILIES WILL:

- adhere to the Service's policies regarding *Control of Infectious Diseases, Immunisation, Sick Children* and exclusion requirements
- exclude their child from care if they display symptoms of an infectious illness or disease or in the event of a vaccine preventable disease occurs in the Service and their child is not immunised fully
- advise the Service of their child's immunisation status, by providing a current Immunisation History Statement recorded on the Australian Immunisation Register (AIR) for the Service to copy and place in the child's file
- advise the Service when their child's medical action plan is updated
- provide sufficient spare clothing, particularly if the child is toilet training
- adhere to the Service's risk minimisation strategies if their child has complex medical needs in the event of an outbreak of an infectious disease or virus
- provide proof of a negative COVID-19 test if their child is tested for the virus
